

WESTMINSTER BUSINESSES: REDUCE COSTS WITH HELP FROM XCEL ENERGY

Businesses can reduce energy use and save on energy-related improvements by taking advantage of Xcel Energy's business efficiency and rebate programs. Reducing energy use also helps the City of Westminster be more sustainable.

Small Business Lighting Program

Xcel Energy provides small businesses with free (no obligation) lighting assessments that identify lighting improvement opportunities and big savings potential. Qualifying customers are provided the free lighting assessment, a recommendation report, and implementation support throughout their lighting retrofit project.

Bonus! You may also qualify for free energy-saving products during the assessment, including screw-in LED lamps.

Benefits of LED Lighting:

- Uses less electricity, which lowers utility bills
- Gives off less heat
- ENERGY STAR® LED bulbs use 70-90 percent less energy than traditional bulbs and last at least 15 times longer*
- Instantly turns on and off and provides a range of color temperatures, sizes, and applications

Commercial Refrigeration

Refrigeration systems in restaurants, grocery, liquor, and convenience stores can account for over half of a facility's energy use. Xcel Energy provides businesses with FREE (no obligation) refrigeration assessments to identify improvement opportunities with big savings potential. Benefits of participating include:

- On-the-spot coil cleaning and LED bulb installation, where appropriate
- Less electricity use and lower monthly energy bills
- Rebates on qualifying equipment to help offset up-front costs of refrigeration upgrades
- Ideas for keeping your equipment in good working order and minimizing failures and costly repairs

Schedule your assessment now by calling 1-855-671-5997 or visiting xcelenergy.com/CommFridge.

Small Building Tune-Up or Energy Audit

Have a small business that could benefit from improved efficiency? The best place to start is with an Onsite Energy Audit or a Small Building Tune-Up.

Onsite Energy Audit

With an Onsite Energy Audit, an energy advisor will conduct a comprehensive audit of your facility and provide you with a detailed report valued at up to \$2,700.

Cost by building size:
\$125 — <50,000 sq. ft. \$250 — 50,000-150,000 sq. ft. \$500 — >50,000 square feet

Small Building Tune-Up

The Small Building Tune-Up program will identify functional systems that can be tuned up to run as efficiently as possible through low- or no-cost improvements that can save you as much as 15% on your energy bills.

Cost by building size:
\$250 — 5,000-25,000 sq. ft. \$500 — 25,001-50,000 sq. ft.

For more information visit xcelenergy.com/SBTU or call 1-855-839-8862.

Heating Efficiency Resources

If your business is looking to reduce energy spending during the heating season, you can find savings through energy efficiency. Energy-efficient improvements can provide long-term savings, and rebates are available to cover up to 60% of your upfront costs to shorten your payback.

- Hot water boilers
- Water heaters
- Commercial furnaces
- Pipe insulation

Get free advice from an energy efficiency specialist at 1-855-839-8862 or learn more about available rebates and eligible equipment at xcelenergy.com/HeatingEfficiency.
