## City requires face coverings in local businesses

As the COVID-19 public health crisis continues, Westminster City Council continues to work to protect the public's health and, thus, passed a resolution requiring all people above age three, who are medically able, to wear non-medical cloth face coverings in local businesses or outdoors when social distancing is not possible.

### **Read complete story.**

Information for businesses regarding face coverings will be provided by the Economic Development Department in the coming days. Stay tuned.

## Business Survey: let us know what resources you need

The City of Westminster has a unique opportunity to survey its businesses on how the COVID-19 pandemic has affected the way they operate now, and how they will operate in the future.

We understand there has been an increase in requests recently for businesses to complete surveys. We mailed a survey to all registered Westminster businesses in early March as part of our annual planning efforts. Please note that mailed survey was NOT related to COVID-19 and did not ask questions specific to the pandemic.

**This survey** is designed to gather and understand your business' challenges and existing capabilities resulting from the COVID-19 crisis. **Your input and responses will be vital in determining what actions and policies state and local government, as well as other stakeholders, can implement to help address those needs.**

All information collected through this survey will be held in confidence and used for the purpose of crafting state and local responses to the COVID-19 crisis.

Please assist us in the recovery process by taking 10 minutes of your time to let us know how you've been affected, and what resources will serve you best.
