When a “wrong” answer was given an electrical “shock” was given. If at any time the subject indicated his desire to halt the experiment, he was given a series of verbal prods by the experimenter, in this order:

-  **It is absolutely essential that you continue.**

The Results?

We've all been taught over the years about the traditional buying cycle of customers where you start with a "Suspect," and then it moves to "Prospect," "Engage," "Qualify," "Propose," "Defend" and "Close." However, over the years, this has changed.

I want to teach you how to insert powerful Authority Positioning Assets™ into the buyer's journey so that you are the obvious choice.

In the new process, the objective is to change "Suspect" to "Calm" and help "frame the problem." Instead of being the suspect, the

THE AUTHORITY POSITIONING COACH

Mike Saunders, MBA, Launches New Website as The Authority Positioning Coach and Announces Interview on the Award-Winning Podcast: Entrepreneurs on Fire with Host John Lee Dumas

Posted Nov 08, 2017 3:45 PM MST

Marketing Huddle, LLC President, Mike Saunders, concluded a rebranding initiative to fine-tune the focus of his marketing service. The Authority Positioning Coach, a boutique firm provides "done-for-you" Authority Positioning Packages to elevate a brand to a position of status and prestige.

On a recent episode of Entrepreneurs on Fire with John Lee Dumas, Mike Saunders discussed how to use an Authority Positioning Portfolio. According to Saunders, "Building Your Authority is Your #1 Priority."

Saunders said that "being seen as the go-to expert in your field is critical to eliminate stagnant business growth & keep you from being lost in a sea of noise!"

When host John Lee Dumas asked about his worst entrepreneurial moment Saunders answered, "making poor decisions and getting carried away with shiny objects. I was trying to gain visibility by doing all sorts of things, but, because I didn't fully understand the true problems that my target audience faced, I could not successfully guide them to success with a clearly defined plan."

He continues, "It has been so rewarding to work through this re-branding initiative for my marketing firm. After concluding client research, I have discovered a simple blueprint that I take my clients through which radically optimizes their authority and reputation."

During the interview Saunders was asked what the one thing he is most fired up about and he replied, "Being able to coach my clients through a specific process to help them become credible before they become incredible."

Saunders concludes by saying "as the Authority Positioning Coach, I help Coaches/Consultants/Entrepreneurs break out of obscurity by amplifying their hidden expertise to a position of prestige & become THE go-to authority & expert in their industry. My "Authority Positioning Suite" package helps them become an Amazon bestselling author without writing a word requiring only 3 hours of their time. Through the process they have 7-10 Authority Positioning Assets™ built for their brand which serve as a long-term digital footprint for their target audience to discover. This works to pre-sell them before they even connect."

This is Terry. Terry is a hardworking agent based in California.

He recently saved a small town more than \$26,000 in benefit costs with his creative strategies.

Do you think Terry is worth \$500 an hour?

Ninety percent of people will say no—just based on his picture.

This is the same Terry who saved a small town \$26,000 in benefit costs.

And he’s been mentioned on CNN....Is this agent worth \$500 an hour?

“Whenever I pose this question to a roomful of people, 80 percent inevitably change their mind right then and there. All we did was make one small change to his photo.”

Look at this simple website. It’s for Tracey Booker, a 31 year old financial planner that does fee-based financial planning. Just based on the layout, would you pay her \$2500 for a comprehensive financial plan? Most people say ‘No’.

But now look at the same website and let me make a slight adjustment... (see if you can pick it up)

Now, let me ask you the same question: Just based on the layout, would you pay her \$2500 for a comprehensive financial plan? In most rooms, about 80% of the audience turns around and says ‘Yes’.

You feel more confident about her expertise this time, right? Yet, the design of the site didn’t change at all. The ONLY change was adding their media citations.
